

REMARKS

The above amendment corrects the inadvertent typing errors in the previously filed Amendment. Claim 42 was intended to delete the remaining portion of the last three lines of claim 42. The arguments for allowance presented in the October 26, 2004 Amendment are not affected by this claim change. Claim 54 has been amended to recite "microns" instead of "nm" which is clearly supported by the specification as being correct and claim 97 has been amended to refer to chlorine as Cl as typed in the last line.

Additionally, Applicants wish to submit that the arguments presented at page 9, of the October 26, 2004 Amendment refers to a "diffracted grating" which should have been referred to instead as a "diffraction" or "diffracting" grating. For the reasons indicated in the October 26, 2004 Amendment, Applicants again respectfully request the allowance of this application.

If there are any questions regarding this amendment or the application in general, a telephone call to the undersigned would be appreciated since this should expedite the prosecution of the application for all concerned.

If necessary to effect a timely response, this paper should be considered as a petition for an Extension of Time sufficient to effect a timely response, and please charge any deficiency in fees or credit any overpayments to Deposit Account No. 05-1323 (Docket #080314.48609US).

Respectfully submitted,

January 25, 2005
